Model 1600-SP
Type E

SP Gauges are manufactured to conform with a specified standard and durometer type (ASTM, ISO, DIN, JIS, or Asker Type). SP gauges are available in analog and digital models.

Model 1600-SP
Type CF

A portable and affordable alternative to the larger stands, the OS-5 can be used in conjunction with a Rex type D durometer to check the hardness of bowling balls. The stand holds the gauge perpendicular to the ball during testing, thus eliminating the human error sometimes associated with checking hard, curved surfaces.
