

Digital inclinometer

5339-90
Zinc alloy material
with three sides magnets

5415-90
Metal material
with 3 built-in magnets on the bottom

5515-90
Aluminum alloy frame
with one side magnet

5515-90F
Aluminum alloy frame
with one side magnet

Features

- Measuring plane containing disk magnets can stick to the surface to be measured.
- Works great for miter saws and table saws.
- Portable size convenient to co-work with other measuring tools and enlarge measuring range.
- Quick display of the measured value on LCD screen.
- Reversible reading allowing to read display to right side up.
- Relative-absolute measurement interchange at any position.
- Used for angle measurement in automotive, woodworking, building, drilling machinery etc.

Technical Data

	Specification
Working temperature	0°C~40°C
Working humidity	≤80%RH
Battery	2 × AAA batteries
Function	On/Off, Relative/absolute measurement interchange at any position, Zero-setting at any position, Angle and slope readout conversion, Data hold, Automatic power off in 3 minutes, With illuminate.

FUNCTION

With illuminate
